## Thank you for supporting Club VIBES!

	<p><b>Lantana</b> is a perennial that requires lots of sun. It grows well in a variety of soil but does need good drainage. Once established it does not require a great deal of water. *Not for use around cattle, sheep, horses, dogs, guinea pigs and rabbits.</p>		<p><b>New Guinea Impatiens</b> like morning sun, evening shade, and lots of water. You can choose Orange, Lavender, Light Pink, or Blood Red.</p>
	<p><b>Fuchsia</b> plants bear exotic-looking, two-tones blossoms that are tropical in feel. The plant prefers partial shade along with frequent feedings with a water-soluble fertilizer during their blooming season.</p>		<p><b>Boston Ferns</b> need full shade and evenly moist soil to ensure success.</p>
	<p><b>Blue Angel</b> is a perennial that needs full to partial sun and a medium amount of water. This plant blooms all summer and has blue/purple blooms that frequently attract hummingbirds.</p>		<p><b>Asparagus Ferns</b> prefer full sun to partial shade. Keep soil evenly moist. Plants sometimes develop small red berries which are poisonous, so keep the berries away from children and pets.</p>
	<p><b>Fan Flowers</b> will do well with little water and full sun. We are offering purple or white varieties.</p>	<p>All plants are quality hanging baskets from <b>Stanley's Nursery</b> in Knoxville. In the rare event that nature prevents a healthy crop of a particular plant, we may have to substitute an equally beautiful similar plant variety.</p>
